Best Rpg Mapping Software

Any of these styles should be possible in other programs like Paint net or PaintShopPro.. Part of what I try to maintain whilst using Photoshop is to make things as fluid as possible with regard to change, so I use a lot of non-destructive style techniques using adjustment layers and layer masks, I'm not sure if Paint.. Here's the kind of look and feel I'm able to achieve quickly in Photoshop And here's a map I'm making in a style that I really couldn't imagine doing in anything other than Photoshop.. It gets regular updates and has a very good wiki explaining how to use it It isn't a from scratch map maker like the other suggestions, but it is good for stitching together pieces you've made in other programs.. Maintenance software for tabletop RPGs World — from partially obscured maps RPTools is the Millennium Falcon of RPG Software.. The place you REALLY want to ask for map making advice however, is: Their maps are STUNNING and they have a zillion howtos for a variety of programs.. There is however a similar, free program called, that is far more powerful and works far better.. Sometimes I'll use Autorealm to generate some fractal coastlines or rivers quickly as well.. However the interface was buggy, basic and annoying Also, it hasn't been updated in years.. net or PSP have all those features Ok, these are much more basic tools then previously suggested: You basically drag and drop premade pieces into place with them.

My Dad's players bought him Dunjinni and he used it for years It made really nice maps, and the user community generated gigabytes and gigabytes of premade tokens for it.. It focuses largely on the height map representation of the world, but produces a pretty decent world map if you play with it.. I did persevere with Campaign Cartographer for many years, but found it hard to use and the maps always looked like every other CC map.. Create printable RPG maps directly from your browser Download thousands of pre-made community maps.. Best Mapping Software FreeThe Campaign Cartographer range of map making software allows you to create beautiful maps, from world to local scale, of real and imaginary places.. There are specific mapping program like Profantasy Campaign Cartographer, NBOS' Fractal Mapper, and Autorealm.. Modern style floor-plan maps I've started to make in Flash, it's just turned out to be the fastest method for me.. The advantage of vector drawing programs is their ability to incorporate fine details, infinite zoom, and ease of editing.
